RESEARCH IN EDUCATION

A Monthly Abstract Journal announcing recently completed research and research-related reports in the field of education.

Research in Education is made up of résumés and indexes. The résumés highlight the significance of each document and are numbered sequentially in the Document Section by ED numbers. The ED prefix identifies Educational Resources Information Center (ERIC) selected documents of educational significance.

The indexes which follow the résumés in each edition cite the contents by:

Subject
Author
Institution
Accession numbers

Material for this publication was processed for Linotron printing by Leasco Systems and Research Corporation under contract with National Institute of Education. Use of funds for printing approved by the Office of Management and Budget March 26, 1971. Contents do not necessarily reflect official National Institute of Education policy.

Cumulative indexes to **Research in Education** are not included as part of the subscription price.

organization of this volume

This volume cumulates the indexes that appeared in the monthly issues of **Research in Education** from January through December 1972. This cumulation is intended to be a companion volume to the individual issues of **Research in Education**, where the complete résumés of educational documents and their availability appear. It will be most useful to those who have access to copies of the monthly journal.

The four indexes are arranged as follows:

Subject

Author

Institution

Clearinghouse Accession Number/ED Number Cross Reference

Each entry shows the title of the document and the ED number assigned to the complete résumé when it was originally announced in **Research in Education**. The searcher can use this number to locate a particular résumé by referring to the ED number ranges that are displayed on the spine and title page of each monthly issue.

Information on how to purchase **Research in Education** appears on the inside front cover of this volume.

The ED number is the key.

organization of this volume

subject index

This subject index is designed to help you find the material you need for your research. It is organized alphabetically by subject, and each entry includes a brief description of the material and a list of the pages on which it appears.

The index is divided into two main sections: a general index and a specialized index. The general index covers a wide range of subjects, while the specialized index covers more specific topics.

Subject Index

3

This index lists titles of documents under the major subject terms that have been assigned to characterize their contents. The subjects, which conform to those presented in the *Thesaurus of ERIC Descriptors*, are in alphabetical order.

As shown in the example below, the accession number is displayed below and to the right of the title. Additional information about the report can be found under that number in the résumé section.
